Pennaeth Mr M Vickery Headteacher

Dear Parents

Your child is invited to attend the UKRoC North Launch at Elvington Airfield in York on 2nd May 2018.

This is as a result of your child's participation in the STEM club, where he has helped to build a rocket to enter the UK Rocketry Challenge. This trip will be paid by STEM club who have secured funding from local businesses, Solvay, Aircovers and Magellan. It is an exciting opportunity. The team will be competing against other schools in attempt to meet the strict success criteria for the rocket launch and retrieval.

Please find attached a copy of the itinerary and information about the day. A packed lunch will be needed. We would like the pupils to wear full school uniform but will provide a team Tee Shirt to wear at the launch.

Pupils will be expected to be at the school carpark by 6:15am for a 6:30am departure in the school minibus. Return is expected at school between 5pm and 6pm traffic depending.

Please complete the consent forms ASAP and return to Mr McDonnell.

Thank you.

Mr D McDonnell
Teacher of Science
STEM Club Coordinator
