# Gaining points this year is different!

If you gain a **2** in a lesson, then you will get **1 achievement point**.

If you have **100% attendance and no lates** in the week you will get **1 achievement point**. This means that you will get **26 points per week** for just doing what is expected.

This means you will receive 1,014 points for the year.

You will get an extra point if your lessons score is **moved to a 3**. This could increase your score to 1,989 plus any other points you earn from any other extra curricular activities.
